STATE AVERAGE WEEKLY WAGE		<p>The terms “scheduled,” “unscheduled,” and “degrees” do not apply to dates of injury on or after 1/1/2005. Impairment means the loss of use or function of a body part or system expressed as a percentage of the whole person. Impairment benefits are determined by multiplying the impairment value times 100 times the state average weekly wage. Work disability benefits, if payable, are based on the worker’s impairment and wage at injury — see ORS 656.214 for a more complete description.</p>
